The diagram shows a sequence of events starting from a stimulus (represented by a lightning bolt) entering a box labeled '1'. This leads to a box labeled '4', which connects to a box labeled '3'. Box '3' has two outputs: one leading to a box labeled '5' and another leading to a box labeled '1'. Box '5' connects to a box labeled '2', which then connects to a box labeled '6'. Box '6' has two outputs: one leading to a box labeled '3' and another leading to a box labeled '4'. Box '3' has an output leading to a box labeled '2', which finally connects to a box labeled '1'. The final box '1' has an output leading to a response (represented by a lightning bolt). Various symbols like stars and circles are placed along the pathways.

A number line titled "Wild Track" with a large star at the start. The line has arrows at both ends and tick marks at 0, -1, -3, -6, -10, and -15. There are four stars placed on the line between 0 and -15.
