Flip-and-Write • Spelling • Brain-Busting

1-6 players • 30-45 mins • Ages 14+

Assemble words progressively in this simultaneous spelling challenge.

1. Combine flipped letters with word fragments to form complete words in your telegram.

The diagram illustrates the game components and how they are used to form words in a telegram. On the left, there are four letter cards: 'R' (flipped), 'P' (flipped), 'O' (flipped), and 'U' (flipped). Each card has a dashed line below it and a small icon (a wheel for 'P', headphones for 'O', and a battery for 'U'). In the center, there are three word fragments, each in a box with six slots. The first fragment has slots 1, 2, 3, 4, 5, and 6, with 'C' in slot 4 and 'H' in slot 5. The second fragment has slots 1, 2, 3, 4, 5, and 6, with 'O' in slot 2 and 'T' in slot 4. The third fragment has slots 1, 2, 3, 4, 5, and 6, with 'L' in slot 3 and 'L' in slot 4. Arrows point from these fragments to two player telegrams. Player 1's telegram shows the word 'POUCH' formed by combining the fragments. Player 2's telegram shows the word 'ROTT' formed by combining the fragments.

2. Unlock perks and achieve scoring objectives based on which letters you use and the words you spell.

The diagram shows the scoring system and perks. At the top, there is a row of icons representing different perks: a battery, a lightning bolt, a wheel, a lightning bolt, a star, a lightning bolt, a lightning bolt, a star, a lightning bolt, a star, a lightning bolt, a star, a lightning bolt, a star, a lightning bolt. Below this, there is a table showing the point values for different word lengths and letter combinations. The table has three rows: 4-letters, 5-letters, and 6-letters. The columns represent different letter combinations, with the first column being the most valuable. The point values are as follows:
